**Colorado
State**
University

- This year's survey was designed to assess the current campus climate of the university
- Results are intended to
 - Provide an overall picture of CSU's employment experiences and perceptions
 - Further CSU's commitment to institutional accountability
 - Inform policies, initiatives, and opportunities that will provide an exceptional and equitable work environment
 - Provide a small benchmark for longitudinal data collection and comparison for perceptions of diversity

- Climate Survey designed by the Assessment Group for Diversity Issues
- Administered via Campus Labs in Fall 2016
 - Spanish and hard copy versions available
 - 15 minutes to complete
 - Anonymous
 - Results are reported in aggregate and no identifying information reported (e.g. small cell sizes)
 - Email initiation sent by President Frank
 - Two week follow-up reminder sent by councils to their employee listserv

Average Responses by Gender

Sign: Differences by Employee Category:

- **AP:** Significant differences by gender for Accountability Standards, Unit Perceptions, CSU Perceptions (Males more favorable)
- **SC:** All means were significantly different (Females more favorable) except CSU Perceptions and Accountability Standards
- **Faculty:** No significant differences
- **SA:** CSU Perceptions significantly differed (F: 3.8, M: 3.6)

Average Responses by Underrepresentation (Race/Ethnicity)

Sign: Differences by Employee Category:

(All significant differences: underrepresented had less favorable means)

- AP: Time Demands & Expectations, Accountability Standards, and CSU Perceptions all significantly differed
- SC: No significant differences
- Faculty: CSU Perceptions significantly differed
- Student Affairs: CSU Perceptions (NU: 3.8; U: 3.4) and Time Demands & Expectations (NU: 2.6, U: 2.9) significantly differed

- The 2014 assessment results revealed minimal between-group differences by employee category, while the 2016 assessment finds consistent and significant employee category differences.
- Faculty respondents have less favorable perceptions than AP respondents on all constructs.
- AP respondents have significantly more favorable responses than SC respondents on all constructs except Work Overload and CSU Perceptions.
- SC respondents had significantly more favorable responses than faculty on the constructs of CSU Perceptions, Work Overload, and Time Demands & Expectations.
- Gender was another personal characteristic with notable differences in experiences and perceptions.
