Demographic Questions

• Expanded our demographic questions for the 2021 survey to include follow up questions regarding race/ethnicity and gender identity

• These questions are helping to inform the work done by the disaggregating race/ethnicity committee

• Intersectionality report forthcoming

• Added a question on identifying as a person with a disability

• Added a question about identifying in the LGBTQIA+ community
Data Collection

• Administered via Qualtrix in Fall 2021 to all CSU employees

• Embedded data included employment type, college/division, department/unit; anonymous

• Survey available in Spanish and English (both web-based and paper hard copy)

• <15 minutes to complete

• Results are reported in aggregate and no identifying information reported; confidential
Sample Weighting

- Weighting was used to ensure that sample demographics align with known population parameters.

- Gender, racially minoritized status, college/division, and employment type were used to weight the overall results.

- College/division reports were weighted by racially minoritized status, gender, and employment type as needed.

- For comparison purposes, 2018 results were also weighted in the 2021 report.
Reporting Standards

- Questions on organizational themes were in a 5 point-likert scale- **strongly disagree, disagree, neither agree nor disagree, agree, strongly agree**.

- Summarize organizational themes with a percent agreement.

- Reports include the response distribution per item as well as cross tabs by gender, employee type, and racially minoritized status at the overall level and the college/division level.

- Department level reports are available by request.

- Reports show weighted sample size…n’s.

- Statistical tests are provided in the data tables, today’s presentation focuses on average percentage agreement across organizational themes.

Colorado State University
Key Findings: College of Health & Human Sciences

- Compared to CSU overall, the College of Health and Human Sciences (CHHS) had lower average percentage agreements in nearly all organizational themes in 2021. Agreements for work culture and respect were comparable to overall reported rates. Percentage agreements were the lowest regarding college/division leadership accountability, with proportions of less than 50%.

- Compared to college/division overall, men reported higher percentage agreements for nearly all organizational themes (except for respect). Transgender/non-binary/nonconforming (T/NB/NC) employees reported lower agreements for all themes, and extremely high rates for favoritism. Both T/NB/NC and women had less desirable results regarding college/division and department/unit leadership accountability.

- Compared to college/division overall, racially minoritized employees, contract/continuing/adjunct faculty (CCAF), tenure/tenure-track (T/TT) faculty, admin professional, and state classified staff had the lowest percentage agreements for college leadership accountability. Regarding favoritism, both state classified staff and T/TT faculty reported rates that were significantly higher than college/division overall (less desirable).

- While there was a decrease in reported discriminatory attitudes in many of the themes in 2021, we found less desirable percentage agreements regarding race/ethnicity, nationality/country of origin, sexual orientation, gender identity, parental status, and mental/physical disability, as there was an increase in reported discriminatory attitudes around these five themes in CHHS.

- However, except for sexual harassment/misconduct, reported themes showed a slight decrease in most problematic behaviors in the college in 2021 compared to 2018. The rates decreased by 2% for problematic behaviors related to bias and verbal abuse. There were no changes regarding bullying behaviors in the college between 2018 and 2021.
