• Communications are accessible
Demographic Questions

• Expanded our demographic questions for the 2021 survey to include follow up questions regarding race/ethnicity and gender identity

• These questions are helping to inform the work done by the disaggregating race/ethnicity committee

• Intersectionality report forthcoming

• Added a question on identifying as a person with a disability

• Added a question about identifying in the LGBTQIA+ community
Data Collection

• Administered via Qualtrix in Fall 2021 to all CSU employees

• Embedded data included employment type, college/division, department/unit; anonymous

• Survey available in Spanish and English (both web-based and paper hard copy)

• <15 minutes to complete

• Results are reported in aggregate and no identifying information reported; confidential
Sample Weighting

- Weighting was used to ensure that sample demographics align with known population parameters.

- Gender, racially minoritized status, college/division, and employment type were used to weight the overall results.

- College/division reports were weighted by racially minoritized status, gender, and employment type as needed.

- For comparison purposes, 2018 results were also weighted in the 2021 report.
Reporting Standards

• Questions on organizational themes were in a 5 point-likert scale- strongly disagree, disagree, neither agree nor disagree, agree, strongly agree.

• Summarize organizational themes with a percent agreement.

• Reports include the response distribution per item as well as cross tabs by gender, employee type, and racially minoritized status at the overall level and the college/division level.

• Department level reports are available by request.

• Reports show weighted sample size…n’s.

• Statistical tests are provided in the data tables, today’s presentation focuses on average percentage agreement across organizational themes.

Average Percent Agreement
Key Findings for WSCOE

- Compared to CSU overall, Walter Scott Jr. College of Engineering (WSCOE) had higher average percentage agreements across all organizational themes in 2021. Rates were the lowest regarding college/division leadership accountability, at 51%.
- Compared to college/division overall, men reported favorable percentage agreements across all organizational themes. Transgender/non-binary/nonconforming employees reported undesirable agreements for department climate and respect. Women had less desirable results regarding work culture and college/department/unit leadership accountability.
- Compared to college/division overall, non-racially minoritized employees, contract/continuing/adjunct faculty (CCAF), and state classified employees had the lowest percentage agreements for leadership accountability. CCAF and state classified employees were significantly impacted, with less desirable rates in nearly all themes. Regarding favoritism, both state classified staff and CCAF faculty reported rates that were significantly higher than college/division overall (less desirable).
- While there was a decrease in reported discriminatory attitudes in nearly all the themes in 2021, the report showed less desirable percentage agreements regarding socioeconomic status and sexual orientation.
- In addition, reported themes showed a decrease in harassment and other problematic behaviors in the college in 2021 compared to 2018. However, the report also showed higher percentage agreements for problematic behaviors related to bullying and bias, with rates ranging from 6% to 12%, respectively.
