Multicultural Organization Development Continuum

Key Findings: CSU Administrative Professionals

- Compared to CSU overall, administrative professionals had slightly higher average agreements in nearly all organizational themes in 2021. Rates were highest (65%) regarding work culture and respect. However, the average agreements (41%) were the lowest regarding college/division leadership accountability.
- Compared to college/division overall, both women and transgender and gender nonconforming (T/NC/NB) employees had lower average agreements across all themes, particularly regarding CSU climate and college/division and department/unit leadership accountability. In addition, both women and T/NC/NB reported the highest agreements regarding favoritism, which is undesirable.
- Compared to college/division overall, racially minoritized employees had lower average agreements in nearly all themes in 2021, with lowest rates regarding CSU climate and college/division leadership accountability.
- Compared to college/division overall, state classified employees reported undesirable average agreements across all organizational themes, with comparable rates around favoritism. Both admin professionals and state classified employees reported lowest rates around college/division and department/unit leadership accountability.
- When looking at perceptions over time for the division, we found a decrease in average agreements in nearly all themes in 2021 compared to 2018. Average agreements were lowest (<50%) regarding retention of employees from diverse backgrounds. There was an increase in average agreements (70%) among employees who reported that the division encourages discussions related to diversity.
- While there was a decrease in reported discriminatory attitudes in nearly all themes in 2021 compared to 2018, we found less desirable average agreements related to socio-economic status, nationality/country of origin, and mental/physical disability.
- Additionally, reported themes showed a slight increase in problematic behaviors related to bias and bullying in 2021. There were no changes in reported themes regarding verbal abuse and sexual harassment/misconduct in 2021 compared to 2018.
